1. Any American made pickup, suburban, blazer, full size van or minivan type vehicles permitted.
2. Factory fuel tanks must be removed.
3. You may run engine of choice.
4. No kickers to distributor protector or frame in front of firewall.
5. A 14" x 14" roof sign is mandatory with number on both sides for easy id by judges.
6. Fuel tanks must be located in the bed of the trucks in the center of the bed directly behind cab. No stock fuel tanks permitted. Fuel cells must be securely fastened and covered. Tank protector can have 2 down legs to the top of the frame. Must run straight up and down. Protector can only extend 24" in to the bed or 24" back from rear seat bar inside SUV's.
7. Battery may be moved to front floor of cab. Battery must be securely fastened to the floor and covered.
8. All trucks must have seat belts.
9. Doors must be secured by wire, chain, or welded shut no loose doors permitted.
10. Tail gates may be welded shut; they may be welded to the bumper on the rear of the truck. Bed seams where the bed sides meet floor may be welded inside of bed only no metal may be added.
11. Box and cab mounts may be replaced with up to 1" bolts. Body mounts may be removed. The body bolts may go all the way through the frame and floor of truck.
12. No trailer hitches or reinforcements of frame or body of any kind are permitted. You may use car bumpers for mounting of car bumpers. You may use factory bumper shocks and brackets or a 3"x3"x5" long box steel

or likewise material.

13. Hoods must be in place and operable. You must have a 12"x12" hole cut in hood over carburetor.
14. Hood may be wired or bolted shut. Only 8 double strands of wire are permitted. They can all go to frame or bumper.
15. No 4-wheel drives permitted. All 4-wheel drive vehicles must have one drive shaft removed.
14. Tires must be D.O.T. tire sizes for trucks with no split rims. No tractor treads, implement tires or other off road tires will be permitted. Remove all wheel weights.
15. Beds must be welded to cab of trucks with a 3" strap directly behind doors.
16. 8 Double strands of wire are permitted on front and rear of truck – all are permitted to go to frame.
17. Suspension may be solid.
18. A 4 point cage is highly recommended in driver's compartment for driver's safety. The cage in the cab may have 4 down legs from front and rear bar straight down to the top of frame. NO rearward kickers inside SUV's. Rollover bar may have 2 points of frame contact inside cab and pickup trucks can have 2 more in bed but no further than 24" into the bed. This will be considered part of your gas tank protector.
19. Trucks must set level. Smashing of the bed sides will be permitted. You must use factory springs for make and model of truck. You may use all thread for shocks.
20. On trucks with out front leaf springs you can have kickers from the dash bar to frame behind a-arms: 2"x2" square tubing or 2" pipe only, 1 per side.
21. Van rear doors can be welded 4 places 12" x 3" wide plates. Mini vans and trucks will run together if numbers are low. Same will apply with full size vans and trucks.

HOLMES COUNTY FAIR DERBY MILLERSBURG OHIO AUGUST 11TH 2018

Holmes County Fair Semi-Stock Rules

WE ARE UPGRADING THIS CLASS TO A NO-PROTECTOR CLASS:

- THIS MEANS: NO ENGINE, DISTRIBUTOR, TRANSMISSION or REAR END PROTECTORS OF ANY KIND.

- NO REAR WINDOW BARS OF ANY KIND

- NO ALL-TREAD AT THE RADIATOR SUPPORT

- 24" FLOATING GAS TANK PROTECTOR IS PERMITTED. THIS CAN NOT TOUCH OR BE WELDED TO THE BODY AT ALL!!!

YOU MUST PASS INSPECTION WITHIN 3 TIMES THROUGH INSPECTION OR YOU WILL NOT BE ALLOWED TO RUN.

1. Any American-made sedan or station wagon. No Imperials. A 14" x 14" roof sign is mandatory for visibility by fans and judges.
2. Helmet, seat belt, and eye protection must be worn at all times.
3. Any controversies or protests must be brought up during the drivers meeting.
4. Any questions, call first. If it doesn't say you can then don't do it. Cars must be stock unless stated in the rules. No painting of the frames, a 14"X14" roof sign is mandatory with numbers on both sides.
5. Judges decisions are final. All cars are subject to re-inspection at any time before, during, or after the event.
6. All glass, plastic, and interior must be removed before arriving to the event.
7. Cars must be stock unless modifications are stated in rules. We have the right to RE-INSPECT, DRILL OR CUT any car at any time. Cars must have functioning brakes at all times, at least on one axle.
8. Any tire permitted. Valve stem protectors are OK. Doubling of tires permitted. Remove all wheel weights.
9. IF YOU STRETCH A RULE YOU WILL LOSE THAT RULE.

NO WASHERS PERMITTED TO BE WELDED TO BODY AND OR FRAME ALL WASHERS MUST BE FREE FLOATING.

FRAME/BUMPERS

1. Front bumper can be loaded. It must look like a bumper. DEC / SKI INC style bumpers are ok. No trailer hitches or reinforcements permitted. Cutting of fenders and bumpers is only permitted for wheel clearance. No frame creasing permitted. Rear bumper must remain stock or removed.
2. Body-to-frame hardware and bushings may be replaced with 5/8" bolt with 3" top and bottom metal

washers. Coil-spring cars may have 4 bolts inside trunk floor thru frame for support. Washers are not to exceed 3"x3". If body bolts are replaced there must be 1" spacing between body and frame. No exceptions. Cars without space will run in MOD CLASS. Do not weld the body washers to the floor or frame. All washers must be free floating. No welding washers to the body and/or frame.

3. Bumper shocks may be welded to the bumper and the frame. Bumper brackets may only be welded to the first 6" of the frame and no additional metal may be used. No welding of bumper to body. Bumper may be welded directly to frame if this is done you can not have a bumper shock in or on the frame. If you use a factory shock there must be a gap between the bumper and the frame. You can not shorten the frame.

4. You may clip a pre-ran car with a single pass but weld. No overlapping of frame and no metal added with same make, and style of frame. You may use 2 3"x 3" x 1/4" fix it plates on pre-ran cars. There must be visible damage to have the fix it plates. If we cannot see damage by looking at the area these plates will have to be completely removed. If a seam has come apart you may re-weld up to 6" of frame but that will count as 1 of the 2 plates (no plates bigger than 1/4" x 3"x 3" allowed if plates are larger they will have to be completely removed) THIS WILL BE STRICTLY ENFORCED.

5. Bumpers may be no lower than 15" and no higher than 22" to bottom of bumper.

6. No plating, pinning, heat treating, stuffing the frame of any kind. Do not paint frame.

7. You may weld a 2" x 6" x 1/4" strap from the bumper to the frame to help keep the bumper on the car. This must be made with one continuous piece not pieced together.

Body/cage

1. All doors, trunks and tailgates must be fastened shut with wire, straps, or welded. Doors, deck lids and tailgates may be welded 5" on 5" off outside only . Deck lids and tailgates must remain stock no tucking. Metal strapping not to exceed 3" wide by 1/8" thick metal. Drivers door may be welded solid with the same size strap or just a solid weld. Front hood must be tied down in 8 different places with a maximum of 2 wraps of #9 wire (twisting permitted) in each location. Deck lids and tailgates may be wired same way. No overlapping or extending of strapping onto the body or down inside the trunk. Some body creasing permitted. Coil-spring Cars may have 4 body thru frame bolts inside trunk floor for support.

2. A 12"x12" Hole must be cut in center of hood and rear deck for inspection and fire safety.

3. You may wire radiator support and hood to front bumper. No crossing (x) wire will be permitted in window or door areas. Double #9 (twisted) wire may be used from top of car to crossbar or dash area in center of windshield area. (One location only) Mild steel strapping up to 3" wide and welded 3" on each end may be used. NO SPRING STEEL MAY BE USED.

4. You may have a cage surrounding the drivers compartment with a roll over bar. Bars 4" diam. Max. Must be sheet metal to sheet metal only. The dash bar must be 5" from firewall. This will be strictly enforced. The bar behind the seat can sit no further back than where the kick panel meets the bench seat, and must be at least 6" off the floor. Roll over bar must be straight up and down. No angling permitted. You may use a gas tank protector. They can be 24" wide and must be 6" from body sheet metal and or frame.

5. A 1/4" x 6" wide plate or channel iron may be used on driver's door only. This must be on outside of door and centered. No kicker bars from behind seat bar or dash bars will be permitted.

6. A 12"x12" hole must be cut in center of trunk lid. You cannot roll quarters over the lid quarter panels must stay in factory location. No wedging of trunks or tops of cars permitted. On pre-ran cars you may tuck the deck lid a little to repair body damage. Some body creasing permitted.

SUSPENSION

1. SUSPENSION MUST REMAIN FACTORY UNLESS OTHERWISE NOTED. Any 5 lug rear end only. No 6 or 8 lug rear ends permitted.

2. Upper A arms may be welded down with a 1/4" x 2"x2" piece of steel on front and back side of upper a arm and you may plug weld the center of the a arm. Lower a-arms may not be welded.

3. You can change out the new style A-arms for old style ones.

4. Leaf spring cars may replace broken springs the main spring and the one next to it may be 5/16 springs all other springs must be factory 1/4" leaf springs only. No more than 5 springs allowed and must have a 2" stagger and mounted in factory location.

5. Rear shock can be made solid. Homemade or solid shocks permitted

6. Coil spring cars may use 2X2 square tubing for trailing arms. They must be in factory location. No relocating trailing arms permitted.

7. Leaf spring clamps may be 2" wide and 3/8" thick 4 per side allowed.
8. If sway bars are used, factory sway bar brackets must be used on frame. No welding allowed.

ENGINE/TRANSMISSION/FUEL GAS TANKS

1. Engine swaps are ok. NOT ENGINE CRADDLES OR PROTECTORS. Welded solid motor mounts are permitted. No form of mounting engine and transmission may strengthen frame or body.
2. Auxiliary transmission coolers are permitted they must be covered and securely mounted.
3. External headers may be used straight up through hood only. Radiators may be removed but cannot be relocated in the vehicle. Radiator overflow must be pointed down to the ground. Sub-bracing of hood is permitted if hole is cut in hood but shall not exceed four 1/2" bolts in hood.
4. NO Distributor protectors will be permitted.
5. No skid plates or transmission protectors but you can double up your transmission and oil pans.
6. Original gas tank must be removed and replaced with a boat-type tank or fuel cell. They must be moved inside of car behind driver's seat, but no further back than rear axle. A 24" wide tank protector is permitted but it can NOT touch or be welded to the body. Batteries must be moved to passenger side floor board and securely fastened. Only one battery of any size permitted.
7. You may run an electric fuel pump, but you must have a on and off switch clearly marked. All fuel lines must be secure and leak proof.
8. Any stock type radiator is allowed, and must be mounted in stock location. You may float your radiator using #9 wire, bungee straps, or anything of that nature, Maximum of 3 spots
9. If using steel fan it must be a clutch fan. Plastic, solid fans will be acceptable. Electric fans are permitted.

HOLMES COUNTY FAIR DERBY MILLERSBURG OHIO AUGUST 11TH 2018

Mid-size Bone Stock Rules

Front Wheel Drive V6 only

Cars must remain stock except for the following

1. Drivers door and only the driver door can be welded shut. All other doors must be wired shut in no more than 8 places.
2. All hoods and trunks MUST be open for inspection! After inspection they can be wired shut in 8 places. 2 hood wires can go around frame or to front bumper. 2 trunk wires can go around frame or to rear bumper.
3. All suspension components must remain stock and in stock position.
4. DOT tires only. No tractor or implement tires allowed. Tires may be doubled, glued or screwed to rims.
5. Rear coil springs may be wired into place with one single strand of 9# wire.
6. Body mounts and rubbers must remain in place. If they are broken or rusted out a single piece of 9# wire may be used. No body bolt changing allowed.
7. Front bumper may be replaced and welded on. NO shortening of frame. Welded brackets 4 inches from bumper and welded with a single pass.
8. Rear bumper must remain stock or removed. No welding allowed.
9. Wire or chain from firewall to roof is required.
10. No engine cradles, skid plates or protectors of any kind.
11. Deck lid may be tucked with a 90 degree bend after inspection.

12. NO prepacking of quarter panels or deck lid allowed.
13. Engine may be chained or wired in place to the engine cradle only. No reinforcing of CV shafts or tie rods.
14. 4 point cage recommended. Cage cannot enter into door or body structure. Must be 8 inched above floor and level to floor.
15. If fuel tank is in front of rear axle it can stay there. Extra wires to hold it in place are recommended.
16. Fuel pump toggle switch must be marked and easily accessible for safety crew.
17. Only welding is front bumper and drivers door.
18. Drivers door MUST be painted WHITE for safety.

HOLMES COUNTY FAIR DERBY MILLERSBURG OHIO AUGUST 11TH 2018

YOUTH RULES:

This class is for the youth ages 12-16 without a driver's license. This class allows them to learn how to strip cars out, build a car to the rules and be a good sport when they win or lose. Upon arrival a notarized parental consent form must be filled out or you will NOT be allowed to participate. One parent must be present with a valid I.D. A notary will be present to notarize the entry forms. A parent or adult may ride with the driver. This is for instructional purposes as well as a possible emergency situation.

CAR REQUIREMENTS - ALL cars must remain stock unless specified by these rules. ALL cars must be factory front wheel drive 4 or 6 cylinder and wheelbase must not exceed 105". Strip interior 100%! You can leave in passenger seat, dash, KEY START RECOMMENDED. REMOVE AIRBAGS!! Don't forget to bypass fuel safety shutoff switch in cars that are equipped.

WELDING- One bar behind seat 12" x 12" inner door plates and no larger than 6" diameter pipe. A roll over bar is strongly advised. You may have a 4 point cage for driver and pass safety, reinforcing the driver's door and passenger door is highly recommended. Either steel channel or plates on outside of front doors are recommended.

DOORS/TRUNK/TAILGATES- Outside only 3" wide x ¼ inch thick strapping. Both outside front doors can be reinforced 6 inches past the door seams. HIGHLY RECOMMENDED! Drivers door MUST be painted white and if you have a rider the passenger door MUST also be painted white.

BUMPERS- 1980 and newer bumpers allowed, they must be bolted on at the factory locations with 8 ½ bolts, 2" washers maximum. You can wire your bumpers to the trunk lid in two places and the radiator support in two places with #9 wire. There can be 12" of weld on each bumper. Example: 3" long bead on 4 different locations. NO LOADED BUMPERS.

TIRES- NO STUDDERED OR TRACTOR TIRES are allowed on the front. You can glue, screw or double tire and stem protection is allowed. Remove wheel weights. No tractor type tires for Youth Class.

WINDSHIELD- This must be removed. You must have 2 places of #9 wire, banding, strapping or chain in windshield area to protect driver/ passenger. You should mount this from the roof to the cowl panel. It must not be attached to the hood.

BATTERY- MUST be mounted INSIDE the car and all parts of battery must be covered with a non-flammable material.

HOODS- These can be secured in 6 places with 2 strands of #9 wire, banding or chain.

FUEL TANKS- IMPORTANT: ANY fuel system that is unsafe will NOT pass. Stock fuel tanks can be left in if they are mounted in front of the rear axle. ABSOLUTELY NO stock tank mounted in your back seat area. Tanks made of steel must have a 4 point hold down bolted to floor with a minimum of a 2" washer on the underside of car. All hoses must be DOUBLE CLAMPED AT ALL CONNECTIONS. Electric fuel pumps must be operated by a switch that the passenger can shut off in case of a fire. Stock systems will simply use the key. We recommend fuel fill pipe be removed under car and a wooden plug be put in rubber fill hose. Other fill vents should be plugged and clamped tight.

ROOF SIGN - A 12" X 12" sign is recommended for easy ID from fans watching their favorite driver and also for judges to track your finishing position for prizes.

HOLMES COUNTY FAIR DERBY MILLERSBURG OHIO AUGUST

MINI-VAN Bone Stock Rules

Front Wheel Drive Vans only
